8:35 AM

Opening Keynote: XTO's Permian

XTO Energy Inc. plans to grow its Permian output to more than 1 MMboe/d as soon as 2024—an increase of nearly 80%—from its currently estimated basin resource base of some 10 billion boe. Here is its outlook, including its estimate of returns of more than 10% even at \$35 oil.

SPEAKER(S):

Staae Gjervik, President, *XTO Energy*

Panel: Price & Power

OPEC attempted to shutter the U.S. oil revolution with low prices. Instead, it made the U.S. oil story stronger. U.S. production is now 12 million barrels a day—and growing. Here's the overview and outlook for the Permian Basin's continued role in U.S. market share in world markets and how it's getting to markets.

SPEAKER(S):

Permian Well Inventory & The Forecast For Future Production Volume

Raoul LeBlanc, Vice President, Financial Services & North American Onshore, *IHS Markit*

Livable Infrastructure In-Basin To Support Growth & Sustainability

Tracee Bentley, CEO, *Permian Strategic Partnership*

Takeaway Capacity & Getting To Markets

Kendrick Rhea, Research Equity Analyst, *East Daley Capital Advisors, Inc.*

Panel: Capital, M&A & Warrior Shareholders—Peace or Proxy?

Until equity markets shifted from “here’s the money” to “show me the money,” assets transacted the usual way: purchase-and-sale agreement. This year, shareholders have deployed takeover bids and other proposals to have greater control over investments. Where’s this heading?

SPEAKER(S):

The New BPX Permian & Overall Portfolio

Mohit Singh, SVP, Business Development & Exploration, **BPX Energy**

Lower 48 Unconventional M&A & Capital Markets

Chad Michael, Head of Upstream, Investment Banking, **TPH & Co.**

SPAC Plans & Thoughts On The U.S. E&P M&A Market | Switchback Energy Acquisition Corp., Speaker TBA

The Outlook For Consolidation Among Basin Operatorst | Hastings Equity Partners, Speaker TBA
